

DEVASHISH SHARMA

Full Stack Web Developer | Software Developer

+91 8446543823 | work.devashishsharma09@gmail.com | Pune

SUMMARY

I am a results-driven Full-Stack Developer with a strong focus on **Data Structures & Algorithms (DSA)**, which enables me to optimize and efficiently solve complex problems. Skilled in **JavaScript, React, Node.js, Express.js**, and **databases** such as **MySQL** and **MongoDB**, I build responsive, scalable, and high-performance web applications. My solid foundation in **Object-Oriented Programming (OOP)** allows me to design clean, maintainable code and implement optimal solutions. Experienced with version control tools like **Git** and **GitHub**, and familiar with IDEs such as **VS Code** and **IntelliJ IDEA**, I prioritize seamless collaboration and efficient workflows. Passionate about continuous learning, I stay up-to-date with emerging technologies to deliver innovative, high-quality solutions that align with both user and business goals.

EXPERIENCE

Front End Developer Intern

CariKture Pvt. Ltd

07/2024 - 01/2025 | Work from Home

- Front-End Developer** proficient in **React.js, JavaScript**, and **HTML5/CSS3**, with expertise in building **responsive, cross-browser compatible websites** for **international clients**. Experienced in **collaborating with design and development teams** to create **optimized, user-centered web experiences** across global platforms. Skilled in **front-end frameworks, version control (Git)**, and ensuring **performance optimization** through **best coding practices**

EDUCATION

B.Tech in Artificial Intelligence & Data Science

Ajeenkya DY Patil University

08/2022 - 05/2026 | Pune, Maharashtra, India

12th

Dinanath High School & Jr. College

06/2020 - 04/2021 | Nagpur, Maharashtra, India

PROJECTS

Med-Track: Prescription Analyzer with Alarm Scheduler

02/2023 - 05/2023

Tech Stack: Python, React.js, HTML5, CSS3, JavaScript, MySQL, RESTful APIs, Git

- Developed a **responsive web application** using **React.js, HTML5**, and **CSS3** that sets automatic **medicine intake alarms** based on prescription schedules. The app allows users to **set alarms** and **order medicines** directly through the platform.
- Built an **OCR-based feature** that converts **handwritten prescriptions** into **CSV format**, extracts **medicine intake timings**, and automatically sets alarms. Integrated the **front-end with MySQL** to store user data and track prescription schedules.

Event-Pro

10/2024 - 11/2024

Tech Stack: Java(Programming Language), Spring-Boot, Hibernate, React.js, HTML5, CSS3, JavaScript, MySQL, RESTful APIs, Git

- Build a cloud-based event management platform** using **Java (Programming Language), Spring Boot, Hibernate, and MySQL**, automating event creation, registration, and real-time updates for enhanced user experience and scalability.
- Built dynamic, responsive UI with React.js, HTML5, CSS3, and JavaScript**, ensuring seamless user interaction across devices and smooth integration with backend systems through **RESTful APIs**.
- Optimized database performance with MySQL**, handling large-scale event data efficiently, and managed version control with **Git** for effective collaboration and continuous integration.

ERP Web Application

10/2024 - 12/2024

Tech Stack: HTML, CSS, JavaScript, Node.js, Express, MongoDB, EJS Templates, Git, RESTful APIs.

- Created an **ERP platform** for managing **faculty, student, and admin access** with **Node.js, Express, and MongoDB**, enabling secure role-based data management.
- Created dynamic, responsive user interfaces using **HTML, CSS, JavaScript, and EJS templates**, ensuring smooth interaction across devices.
- Implemented version control with **Git** to streamline collaboration and maintain code integrity throughout the development process.

SKILLS

Front End

HTML5	CSS3	JavaScript	Bootstrap
React.js	TailwindCSS	Next.js	TypeScript
Redux			

Back End

JAVA	R	Python	Node.js	MySQL
Express.js	MongoDB	RESTful APIs		
Mongoose	JWT	WebSockets		

Data Structure & Algorithm

DBMS	Data Structure & Algorithm
------	----------------------------

Object-Oriented Programming (OOP)

Other Skills

Computer Networking		Strong Communication	
Adaptability		Google Cloud Platform (GCP)	
Git	AI Agents	GitHub	Interpersonal Skills
Operating Systems		Cloud Computing	

CERTIFICATION

Full Stack Web Development

udemy

Google IT Automation With Python

Coursera

Data Visualization using Tableau

Mind Luster

Google Data Analyst Professional Certification

Coursera

Google Cybersecurity Professional Certification

Coursera
